## Earth Day

Dear Friends,

The first Earth Day was April 22, 1970. Many historians use that day as the beginning of the environmental movement in the United States.

Thirty-nine years later, I believe Earth Day 2009 will also be historic. The green movement has gained such momentum in the mainstream that I believe we will never go back. In fact, we know that we HAVE to move forward!

Green Home Experts is using the entire month of April to celebrate Mother Earth. Please join us at any of the events we're hosting. Also, please be sure to come by the shop on Earth Day. Proceeds from sales that day will be donated to [Seven Generations Ahead](#), a local organization whose mission is to build ecologically sustainable and healthy communities.

Finally, I encourage you to find a way to celebrate Mother Earth this month. Check out your local papers and the [Earth Day Network](#) to find volunteer opportunities near you.

Yours,  
Maria Onesto Moran  
President
